Lesson 9: Care and Maintenance of Fabrics
Worksheet – 9

6. How does ironing of a silk saree differs from steam pressing of a woollen shawl?
7. Amit was annoyed with his wife as his sweater reduced in size gradually after subsequent washes. His wife was unable to understand the reason of reduction in size of sweater inspite of using the expensive and branded detergent. Sunita who is Amit’s neighbour visited them and on hearing their conversation she helped Amit’s wife to resolve this problem by suggesting her changes in laundering the sweater. List the changes Amit’s wife has to incorporate for better results.
8. Identify the part of the washing machine used in washing clothes shown in the picture below. Also mention the type of washing machines which bear this component.

9. CROSSWORD PUZZLE

^A A					^G G			^H D
	^B T		L		U			
^F G			^E S	O	A	P
