A Word With You

Dear Learner,

Welcome to the National Institute of Open Schooling!

By enrolling with this Institution, you have become part of the family of the world's largest Open Schooling System. As a learner of the National Institute of Open Schooling's (NIOS) Vocational Programme, we are confident that you will enjoy studying and will benefit from this very unique system of learning.

Recognising the importance of Bamboo cultivation and the skill requirements for production of quality planting material all over the country, NIOS has developed the course on "Bamboo Cultivation". This course deals with the knowledge and skills required for the cultivation of bamboo as per the recommended practices for a given agro economic zone, hygienic harvest to achieve the expected yield and ensuring sale of the same. This course comprising of theory and practical components is intended to provide you self-confidence and a new avenue to the future. After completing this course you would be able to work independently, bear risk and develop ability to make decisions pertaining to your area of work.

We are confident that this course will prove to be beneficial to you. Sincere efforts have been made to present the content in a very simple manner for your easy understanding. Since this is a practical oriented subject we advise you to attend the Personal Contact Programmes and Practical/Training sessions organised at your Accredited Vocational Institutes (AVI)/ Study Centre. Your AVI will give you the necessary hands on training that is very essential to master this vocational course.

We look forward to any comments and suggestions from you for further improvement.

We wish you all the best in your future career.

Course Team
National Institute of Open Schooling (NIOS)

How to use the Study Material

Congratulation! You have accepted the challenge to be a self-learner. NIOS is with you at every step and has developed the material in *Bamboo Cultivation* with the help of a team of experts, keeping you in mind. A format supporting independent learning has been followed. If you follow the instructions given, then you will be able to get the best out of this material. The relevant icons used in the material will guide you. These icons have been explained below for your convenience.

Title: will give a clear indication of the contents within. Do read it.

Introduction: This will introduce you to the lesson linking it to the previous one.

Objectives: These are statements that explain what you are expected to learn from the lesson. The objectives will also help you to check what you have learnt after you have gone through the lesson. Do read them.

Notes: Each page carries empty space in the side margins, for you to write important points or make notes.

Intext Questions: Very short answer self check questions are asked after every section, the answers to which are given at the end of the lesson. These will help you to check your progress. Do solve them. Successful completion will allow you to decide whether to proceed further or go back and learn again.

What You Have Learnt: This is the summary of the main points of the lesson. It will help in recapitulation and revision. You are welcome to add your own points to it also.

Terminal Exercise: These are long and short questions that provide an opportunity to practice for a clear understanding of the whole topic.

Answers to Intext Questions: These will help you to know how correctly you have answered the questions.

www

Web site: These websites provide extended learning. Necessary information has been included in the content and you may refer to these for more information.
