1. Introduction

- 1.1 The Open Basic Education (OBE) programme was initiated and implemented in June 1994 with the aim of providing the primary and upper primary education through alternative means of open schooling to adult neo-literates who are not able to take advantage of the formal system of schooling. It is an equivalency programme and provides three tier education under OBE programme i.e. Level 'A' (equivalent to class 3), Level 'B' (equivalent to class 5) and Level 'C' (equivalent to class 8). In the year 2000, the programme was extended to cover children below 14 years age group with the help of Accredited Agencies (AAs).
- 1.2 NIOS reaches out to marginalized groups who may have been unable to attend school earlier, due to physical or social inaccessibility, by offering them an alternative channel through open and distance learning (ODL) mode of education for primary schooling. The flexibility of the open learning system will further ensure higher retention rate as well as an increase in the learning achievement as learner would now be able to give pace to his/her learning. This exercise would provide high quality schooling to children with an aim to achieve universalisation of elementary education.
- 1.3 The Open Basic Education programme has been recognised by the Government of India as equivalent education to that of the formal school, for purposes of further education and employment. Different States have indicated interest in the programme for out of school children as well as for adolescents and neo literate adults. The OBE is offered in some states as an Equivalency Programme under the Continuing Education (CE) scheme of the National Literacy Mission (NLM).

2. Objectives

- 2.1 To provide an alternative education programme equivalent to the formal education system through Open Learning using Distance Education Mode (DEM).
- 2.2 To provide learning continuum based on a graded curriculum ensuring quality of education for neo-literates, school dropouts and individuals studying in any alternative system.
- 2.3 To contribute to accomplishment of the constitutional commitment to achieve the goal of universal elementary education and to fulfill the requirement of Education for All (EFA).
- 2.4 To promote Continuing Education with a view to develop a learning society.
- 2.5 To reach the unreached by developing alternative models of basic education using the potentialities of Distance Education Mode (DEM).
- 2.6 To reduce disparities in access to education, especially with regard to girls/women and disadvantaged groups leading to democratization of education.

3. Courses Offered under OBE Programme

3.1 The OBE programme is offered at three levels 'A', 'B' and 'C'

Level 'A'- Level 'A' is equivalent to standard III of the formal school system

Level 'B'- Level 'B' is equivalent to standard V of the formal school system

Level 'C'- Level 'C' is equivalent to standard VIII of the formal school system

3.2 **Multiple Entry System for OBE Programme**

The minimum age for admission in the above mentioned courses will be determined as on 31st March.
