About the National Institute of Open Schooling

The National Institute of Open Schooling (NIOS) formerly known as National Open School (NOS) was established in November, 1989 as an autonomous organization in pursuance of National Policy on Education 1986 by the Ministry of Education (MoE), Government of India. NIOS is providing a number of Vocational, Life Enrichment and community oriented courses besides General and Academic Courses at Secondary and Senior Secondary level. It also offers Elementary level through its Open Basic Education.

The National Institute of Open Schooling (NIOS) is the largest Open Schooling System in the world with cumulative enrolment of 4.7 million (during last 5 years). It is one of the two national boards of Secondary Education in India and provides school education through Open Distance Learning mode with the effective integration of technology contributing to the Universalization of school education and catering to the educational needs of the prioritized target groups for equity and social justice.

The NIOS operates through a network of 21 Regional Centers, 1 NIOS Center, 02 NIOS cells and a network of more than 10,000 Study Centers. In three decades of its existence, the NIOS has enabled millions of learners to complete their schooling with a particular focus on education of Learners with Disabilities, Women, Army Personnel, Weavers, Artisans and Minorities. The NIOS has taken up diverse initiatives to provide quality education opportunities to different client groups through Open and Distance Learning and thus was conferred the Award of Excellence for Institutional achievement in Distance Education by the Commonwealth of Learning (COL) in 2016 at the 8th Pan Commonwealth Forum and UNESCO King Sejong Literacy Prize 2021 for the Programme 'Enabling education of persons with disabilities through the technology-enabled inclusive learning material, with a focus on Indian Sign Language (ISL) based content'. A great achievement has been taken in the Field of Teacher Training with the collaboration of Ministry of Education and NCERT and trained approx 11.50 lakh in-service teachers across the country through distance mode in 2017-19.

NIOS is well acknowledged for its innovations in Open and Distance Learning (ODL) and its initiatives in the field of Inclusive education, Bhartiya Gyan Parampara (Indian Knowledge Tradition), the On-Demand Examination system. However, researches in the field of ODL at school level need impetus. ODL at the school level has gained attention due to its potential to address various educational challenges and cater to diverse learner needs.

Commonwealth Educational Media Centre for Asia (CEMCA)

History: In response to the needs expressed by the Commonwealth countries of the Asian region for a more effective use of educational media resources for Distance Education, the Commonwealth of Learning (COL) established the Commonwealth Educational Media Centre for Asia (CEMCA) in 1994. CEMCA, under a host country agreement signed between COL and Government of India (GoI) in 1998, has its headquarters in New Delhi. The GoI notified CEMCA as a diplomatic mission under section 3 of the United Nations (privileges and immunities) Act, 1947 (46 of 1947) vide The Gazette of India, Extraordinary, Part II, Section 3, Sub-section (ii) dated 10 February 2000.

Mission: To assist the foremost agencies in Commonwealth Asia that promotes media-enabled learning for development. Learning by using multiple media in open, distance and technology-enhanced learning.

About the Conference

The Open and Distance Learning is evolving as an appropriate alternative for heterogeneous society. Besides general clientele, it makes earnest efforts to reach the un-reached. It is known as flexible, inclusive and adaptive to the diverse needs of the learners. In the present era learners are rapidly involved in technological, social and economic environment. They need to have multitasking skills, global connection, recognition, cultural sensitivity, collaborative and social skills. Therefore, it is important to design an education system for educators, policymakers and educational institutions to provide relevant and effective learning experiences according to the needs of the learners.

The need for lifelong learning is significant and relevant in ODL mode through technological advancement, changing work dynamics in the contemporary context. The present scenario of ODL offers variety of emerging trends such as providing personalized learning experiences, integration of data analysis tools, infusing artificial intelligence to automate administrative tasks, providing insights into course improvements and delivering smart content which is adaptable to various learning styles etc. The innovations in the form of hybrid learning approach helps to address the desire for flexibility among learners while allowing them to balance the advantages of online learning with periodic face-to-face interactions. The innovative approaches and perspectives in the ODL are contributing to create a virtual environment and comprehensive transformation.

This conference aims to bring together educators, researchers, policymakers, and industry experts to share insights, best practices, and cutting-edge innovations that are shaping the future perspectives of ODL. It will provide a platform for participants to delve into the latest research and trends in Open Distance Learning. Participants will have the opportunity to engage with demonstrations, case studies that showcase the effective integration of technology in distance learning. Open Distance Learning has the potential to democratize education by providing access to diverse learners.

The conference will initiate dialogues and emphasize discussions on ensuring inclusivity, accessibility and addressing the digital divide in ODL. The Conference will comprise of parallel sessions with features that delve into the policy projections. Participants will gain insights into global and regional policies and deliberations will revolve around creating an enabling environment for the sustainable growth of ODL. By bringing together a diverse group of stakeholders, the conference strives to explore the potential of ODL and contribute to a more accessible, inclusive and technologically advanced educational panorama.

Owing to the above perspectives, the conference focuses to achieve the following objectives:

1. To identify and explore the emerging trends, innovative practices, challenges and opportunities in ODL.
2. To deliberate upon the policy frameworks and practices supporting growth and sustainability of ODL at global level.
3. To delineate strategies to address systemic issues of access, equity and quality in ODL with special emphasis on inclusion.
4. To explore the future of Vocational and Environmental Education for achievement of sustainable development goals.
5. To provide platform for international collaborations between ODL Institutions, Governments and individuals to strengthen resources and expertise to empower global ODL community.
